

Execution Policy

At My Maa Markets, we are committed to providing fast, fair, and transparent trade execution across all instruments and market conditions.

Our goal is to deliver the best possible outcome for client orders by combining institutional-grade infrastructure, reliable liquidity access, and efficient order handling processes.

We prioritize execution quality to ensure traders can operate with confidence across forex, commodities, indices, stocks, and crypto markets.

Execution Model

- Straight Through Processing (STP)
- No dealing desk intervention
- Access to deep liquidity providers
- Institutional-grade execution environment
- Competitive pricing from multiple liquidity sources

This execution model helps reduce conflicts of interest while supporting faster and more efficient order processing.

Key Factors in Execution

When executing client orders, we prioritize:

- Price
- Speed
- Likelihood of execution
- Slippage conditions
- Market volatility
- Available market liquidity
- Overall fairness of execution

Our systems are continuously monitored to maintain consistent execution quality.

Order Types Supported

- Market Orders
- Limit Orders
- Stop Orders
- Stop-Loss Orders
- Take-Profit Orders
- Pending Orders

These tools help traders manage risk and execute strategies with greater control.

Important Notes

Risk Management Features

- Stop-Loss / Take-Profit
- Pending Orders
- Margin Alerts
- Real-time account monitoring
- Negative balance protection for eligible retail clients

Commitment Statement

We continuously optimize our infrastructure to ensure institutional-grade execution, pricing transparency, and a reliable trading experience for all clients.
